

The combination of multilayer plywood cabinets covered with resistant black matt paint, optimized steel grille and carefully selected transducers, allows **KEY** to have an unbeatable price to quality ratio.

Exceptionally reliable **KEY8** is the ideal option for both fix and live sound applications on tight budgets.

KEY. *Unlock the beat!*

MAIN FEATURES

- Trapezoidal shape.
- 8" woofer with carbon fibre cone.
- 1" Neodymium tweeter with Titanium diaphragm.
- Accurate designed crossover to achieve an optimum performance.
- Optimized protective metal grille.
- M8 rigging points.
- Ø 35 mm top hat socket.

La combinación de recintos de madera multicapa cubiertos de resistente pintura negra mate, con una optimizada reja de acero y transductores seleccionados cuidadosamente permiten que la gama **KEY** tenga una relación calidad-precio imbatible.

Fiable y resistente la **KEY8** es la solución ideal para ser utilizada tanto en instalaciones fijas como en aplicaciones en directo de presupuesto ajustado.

KEY. *Unlock the beat!*

CARACTERÍSTICAS PRINCIPALES

- Formato trapezoidal.
- Altavoz de 8" con cono de fibra de carbono.
- Tweeter de Neodimio de 1" con diafragma de Titanio.
- Filtro divisor pasivo de alta precisión.
- Optimizada reja protectora de acero.
- Puntos de suspensión M8.
- Vaso para trípode Ø 35 mm
